The screenshot displays a comprehensive radio software interface. At the top, there are 'RADIO' and 'AUDIO' sections with controls for 'FAX', 'SSTV', and 'RTTY / CW'. Below these are 'Fax Prefiler' and 'Fax Decoder' settings, including frequency (2300) and baud rate (800). A 'Picture receiver' window shows a noisy image, and a 'Picture explorer' window lists image files.

The central 'SatTrack' panel provides satellite data:
